

ZEUS USER MANUAL

Recharging:

1. The rechargeable batteries are already installed. The unit cannot be opened, as this will void the warranty.
2. We recommend charging the stun baton before it is used. Simply plug the charging cord into the bottom of the unit and into a standard outlet. A red light will come on while the unit is charging.

IMPORTANT: Do not charge for more than 8 hours at a time. Overcharging can damage the unit and void the warranty. Under normal use, the unit will need to be recharged for 8 hours every 60 days. If the LED flashlight is used frequently or if the electrical current becomes noticeably weaker, the unit will need to be recharged.

Testing:

(WARNING: Do not test fire the stun gun for more than 1 second as this will damage the unit and void the warranty.)

1. Slide the on/off switch on the bottom of the unit to the "ON" position.
2. Slide the Safety and Light Mode Switch to the top position (a red stun warning light will come on to indicate the unit is ready to fire). Note: the stun feature will not work when the flashlight is on.
3. Press the Stun Activation Button to test-fire the unit. Do not hold the button down for more than 1 second. You will see and hear a charge fire across the top of the unit between the contact probes. Important: slide the on/off switch to "OFF" when you no longer want the unit to fire.

Warning: Keep away from children and pets. Do not use on individuals suffering from heart diseases.

Using the Stun Baton in Self Defense:

1. With the on/off switch in the “on” position and the safety switch in the top position, touch your assailant’s body with the contact probes and press the Stun Activation Button.
2. Touching anywhere on the assailant’s body will have an effect. However, the maximum effect is achieved in the areas shown to the right:
3. When touching the assailant’s body, you will not see or hear the electrical charge as you do when the unit is test-fired. You can hold the Stun Activation Button-down for more than 1 second, as this will not damage the unit, as it will when being test-fired.
4. You do not have to be concerned about the effects of the charge being transferred to you. Even if the assailant touches you while being stunned, you will not feel the effects of the charge.

Using the Flashlight :

(this unit features three light modes: full strength, half strength, and strobe)

1. Slide the on/off switch on the bottom of the unit to the “ON” position.
2. Slide the Safety and Light Mode Switch to the middle position to turn on the light.
3. To change the light mode move the switch from the middle to the top or bottom position then back to the middle position.

NOTICE: Purchaser must check and abide by all local laws governing the possession and use of stun guns. In addition, the stun gun must only be used in a lawful manner for self-defence.

NOTE: Not to be used on children, persons with heart disease, or any vital part of the human body. Not to be stored or used in environments where it is damp or humid or where there are extremely hot or cold temperatures. Do not use on metal objects.

Effects of the Unit on an Assailant:

1. Touching an assailant for less than 1 second will cause minor muscle contractions and have a repelling effect.
2. Touching an assailant for 1 to 2 seconds will cause muscle spasms and a dazed mental state.
3. Touching an assailant for 3 to 5 seconds will cause loss of balance and muscle control, total mental confusion, and disorientation. All effects to the assailant are temporary; the stun batons can cause no permanent harm. (NOTE: The device should not be used for longer than 5 seconds.)

WARRANTY:Xboom Security Products extends a 1-year warranty to the Zeus Stun Gun Baton for the product against defects in materials or workmanship, with the following exceptions: The warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, moisture, the affixing of any attachment not provided with the product, loss of parts, or recharging the unit in any manner not in accordance with the included instructions. The warranty will be voided if the unit has been opened or tampered with in any way or if any unauthorized replacement parts have been used.
