

Toy Drones

Drone CH-085

- 6 Channel Radio Control, 6 Axis Gyro and Full Functional. The radio-controlled Sky Phantom Quadcopter will delight any child.
- The aircraft is made of high-quality ABS plastic and durable materials, resistant to damage. A unique helicopter with four propellers, capable of flying independently with the help of the remote control, attracts attention with original design and stylish coloring.
- SPECIFICATIONS • Item No.: CH085 • Battery: 3.7V 450mAh Li-Po(included) • Charging time: About 130 minutes • Transmitter Battery: 4"AA" batteries (not included) • Controlling distance: About 40 - 50 meters • Flying time: About 5 - 7 minutes • Product Size: 27.5 X 27.5 X 5 cm • Frequency: 2.4GHz
- NOTE: There is no camera and mobile holder included with this drone but there is an option to install a camera which you have to purchase it separately by yourself and installation details are given in instruction manual.

Drone CF919

- The quadcopter can fly both indoor and outdoor. Including 4CH digital proportional RC system. Rechargeable high performance battery.
- Function: up/down-left/right sideward flight-forward/backward-turn left/right-with gyro/flash lights-A 360-degree 3D and special functions(continuous rolling)
- User Friendly Remote, Wifi Video Recording Charging Time 40 Mins, Flying Time Approx 20 Mins, Includes Camera, One Small Screw Driver One Remote, One Mobile Phone Adapter, One Charging Lead Landing Legs(Plastic)

Leap drone(2 in 1)

- Type: Mini Drone
- Control Range: 50 m
- Battery Type: Lithium Battery
- Weight: 350 g

Flying UFO

- Flying height - 5 mtrs, Flying time: 8-10 minute, Weight - 0.1 kg THROW TO FLY & SAFE Toss mini drone Gently, It flies and hover in the air immediately. Advanced LED infrared sensor hover technology, inductive suspension and collision protection. The built-in gyro controls the accuracy and sensitivity for balance.
- Control By Gestures & 360° Rotating flying: Start the Drone, Gently throw to make it fly, Control it with your hands to make it flying in multiple directions. Four power motor fast rotation to provide power to make itself 360° Rotating
- Durable Material & Anti-resistance Design: This flying UFO toys adopts flexible ABS material to improve resistance of crashing, Designed for motion-sensitive, leave the obstacle before crashing to it. FUN FOR ALL AGES!
- Rechargeable Battery and Shining LED Light Indicator: The mini flying quadcopter has a built-in and rechargeable 3.7V/300mAh Lithium battery that only needs 40 minutes to charge fully

QY 66 drone

- Drone 6 Axis Gyro 2.4G 6Ch Rc Quadcopter 360 Degree Rollover Aircraft Helicopter Drone
- Easily Implement Various Flight Movements, Stronger Wind Resistance, Easier To Control.
- 2.4G Technology Adopted For Anti-Interference, More Copters Flying At The Same Time Can Not Interfere With Each Other Led Night Lights, This Quadcopter has No Camera - Blue or Light brown colour - randomly shipped.
- Flying Range is less than 40 Metres.
- Weight is Less than 250 gms.

QY 66 drone

- Drone 6 Axis Gyro 2.4G 6Ch Rc Quadcopter 360 Degree Rollover Aircraft Helicopter Drone
- Easily Implement Various Flight Movements, Stronger Wind Resistance, Easier To Control.
- 2.4G Technology Adopted For Anti-Interference, More Copters Flying At The Same Time Can Not Interfere With Each Other Led Night Lights, This Quadcopter has No Camera - Blue or Light brown colour - randomly shipped.
- Flying Range is less than 40 Metres.
- Weight is Less than 250 gms.

CF-919 Drone

- 1.Only Drone with Two lights Blue and Green make your drone visible even at night or during darkness
- 2.Dorne with 6 Axis Gyrosocpe for better positioning even at height
- 3.Facility for protection of blades - You can fly with and without blade protection
- 4.It has 3D Flip rolls facility for greater entertainment and happiness
- 5.Drone with Altitude hold function - 2.4 GHZ

Drone H010

- Type: Planes & Helicopters
- Width x Height: 31 cm x 6 cm
- Remote Control Features:Up/Down, Left/Right, Forward/Backward, Left/Right Side Flying, 360 Degree rolling Action, Hover, One Key return, 6-Axis Gyro::Safety Features:Make sure you use new or fully charged batteries in remote controller Do not touch the aircraft while flying Do not fly near obstacles, people or pets Carefully read instruction manual before any use
- Durable Material, 2.4GHZ Technology & Wind Resistance, 360 Degree rolling action, 6 Channel 6 Axis Gyroscope
- Sale Packge:2.4G RC Quadcopter, Transmitter, USB Charger, 4 x Protect Ring, 2 x Extra Blade, Manual

HX 770 Aircraft drone

- Good Training Drone for Beginners: This drone adopts 2.4G 6 Axis Gyro Tech & has Infrared remote.
- There will be less interference, more stability, and easy maneuverability.
- 360° Roll-Over: The simple flying of WSAD is too boring, and the new 3D rolling special effects surprise all the people.
- Headless Mode: The function will orient your drone according to your controller, making flying and control easier.
- GREAT GIFT IDEA: With 3 speed modes, kids or beginners can practice step by step. And it is definitely a great idea to share with your children or friends as a Children's Day or Diwali gift Durable Build quality: Comes with extra propellers too.

Vision drone

- This Drone is with fancy LED lights, brilliance in the night sky. 2.4GHz technology makes long flying distance, more racers to have fun together at the meanwhile, 6-Axis gyroscope make it more stable flying and be easy to control.
- App control and first person view of video on your smartphone/tablet. Download and install the app, available for apple ios and android devices, and stream photos and video in real-time straight to your smartphone or via tablet.
- Troubleshooting Steps : 1. If any of the fan is not working then please remove the battery for some time and then re-connect the battery wire. 2. After turning it on, if any of the fan is not working, then use the right side lever of remote control and rotate it in clockwise direction in 360 degree direction. Drone and remote control both should be on, move the lever quickly. 3. If the drone is hovering in left/right/forward/backward direction then use.

HX- 763 drone

- v-max gyro quad - rotor aircraft flight. this is an unprecedented technology bring to you a new enjoyment with headless mode and one key return option, very fun to fly and has a great control on the Copter.
- Flying Range: Up to 40 mtrs
- This 6 Channel 2.4G 6 Axis Gyro Hexacopter with Radio Transmitter and Receiver, a hexacopter, is controlled by a standalone remote controller, which means you'll probably have to practice using it to get the hang of the controls.
- RC Charging Time: About 2 hours Quadcopter Battery: 3.7V 300mAh The Drone Has No Camera, Its Flying Heights 50 Meters and Its Weight 107gms
- Toyfinity HX-763 Original Radio Remote Controlled Drone with Unbreakable Blades

Quad v18

- Material: Carbon Fiber, Plastic
- Battery Operated, 3 Batteries
- Rechargeable Batteries
- Width x Height: 9 cm x 20 cm
- Age: 6+ Years
