Improved Low-Light Performance

Mavic 3E's Wide camera has large $3.3\mu\text{m}$ pixels that, together with intelligent low-light mode, offer significantly improved performance in dim conditions.

Exceptional Operational Efficiency

45-min flight durations let you cover more ground each mission, for surveying of up to 2 square kilometers in a single flight.

Omnidirectional Obstacle Sensing

Equipped with wide-angle lenses on all sides for omnidirectional obstacle avoidance with zero blind spots. Adjust proximity alarms and braking distance depending on mission requirements.

Extreme Precision

Advanced RTH automatically plans the optimal route home, saving power, time, and hassle.

APAS 5.0 enables automatic rerouting around obstacles, so you can fly with peace of mind.
