Intuitive & Easy to Use

1/1.3-Inch Sensor, Breathtaking Pro-Level Imaging

Capture lifelike details with the 1/1.3-inch sensor that delivers stunning image quality in any environment.

Under 249 g^[3] Lightweight and Portable

Weighing under 249 g, DJI Lito X1 is easy to carry anywhere, so inspiration is always within reach.

Extended Battery Life^[4] for More Flight and Fun

Enjoy longer flights with an intelligent battery that maximizes power efficiency and extends your creative time.

15km Video Transmission^[5] Stable and Smooth

Experience a stable, responsive live feed up to 15km, ensuring seamless control and confidence in every flight.

Pack Light. Fly With Ease.

DJI Lito X1 is built for the on-the-move. Fold it down to the size of your palm, it fits easily in your bag or pocket. Your ideal flying camera for travel and creators.

Crisp Image Quality, Instant Awe

Equipped with a 1/1.3-inch CMOS sensor and f/1.7 aperture, DJI Lito X1 captures rich details and clear, low-noise footage. No props. No stabilizers—just jaw-dropping results, every shot, every time.

1/1.3" CMOS Sensor

Capture more detail with a larger sensor.

f/1.7 Aperture

Let in more light for stunning low-light shots.

Stunning Results

Vibrant colors.
Sharp clarity.
Instantly share-worthy.

High-Resolution Photos, Rich in Detail

DJI Lito X1 captures up to 8K resolution ^[6] photos that retain crisp details even when zoomed or cropped. SmartPhoto ^[6] optimizes lighting and colors to capture the gradients of a seaside sunrise or the vibrant layers of city lights, while keeping flexibility for post-editing.

Up to 8K Resolution ^[6]

Capture ultra-high-resolution photos packed with lifelike detail.

SmartPhoto ^[6]

Optimizes lighting and colors for stunning, true-to-life shots.

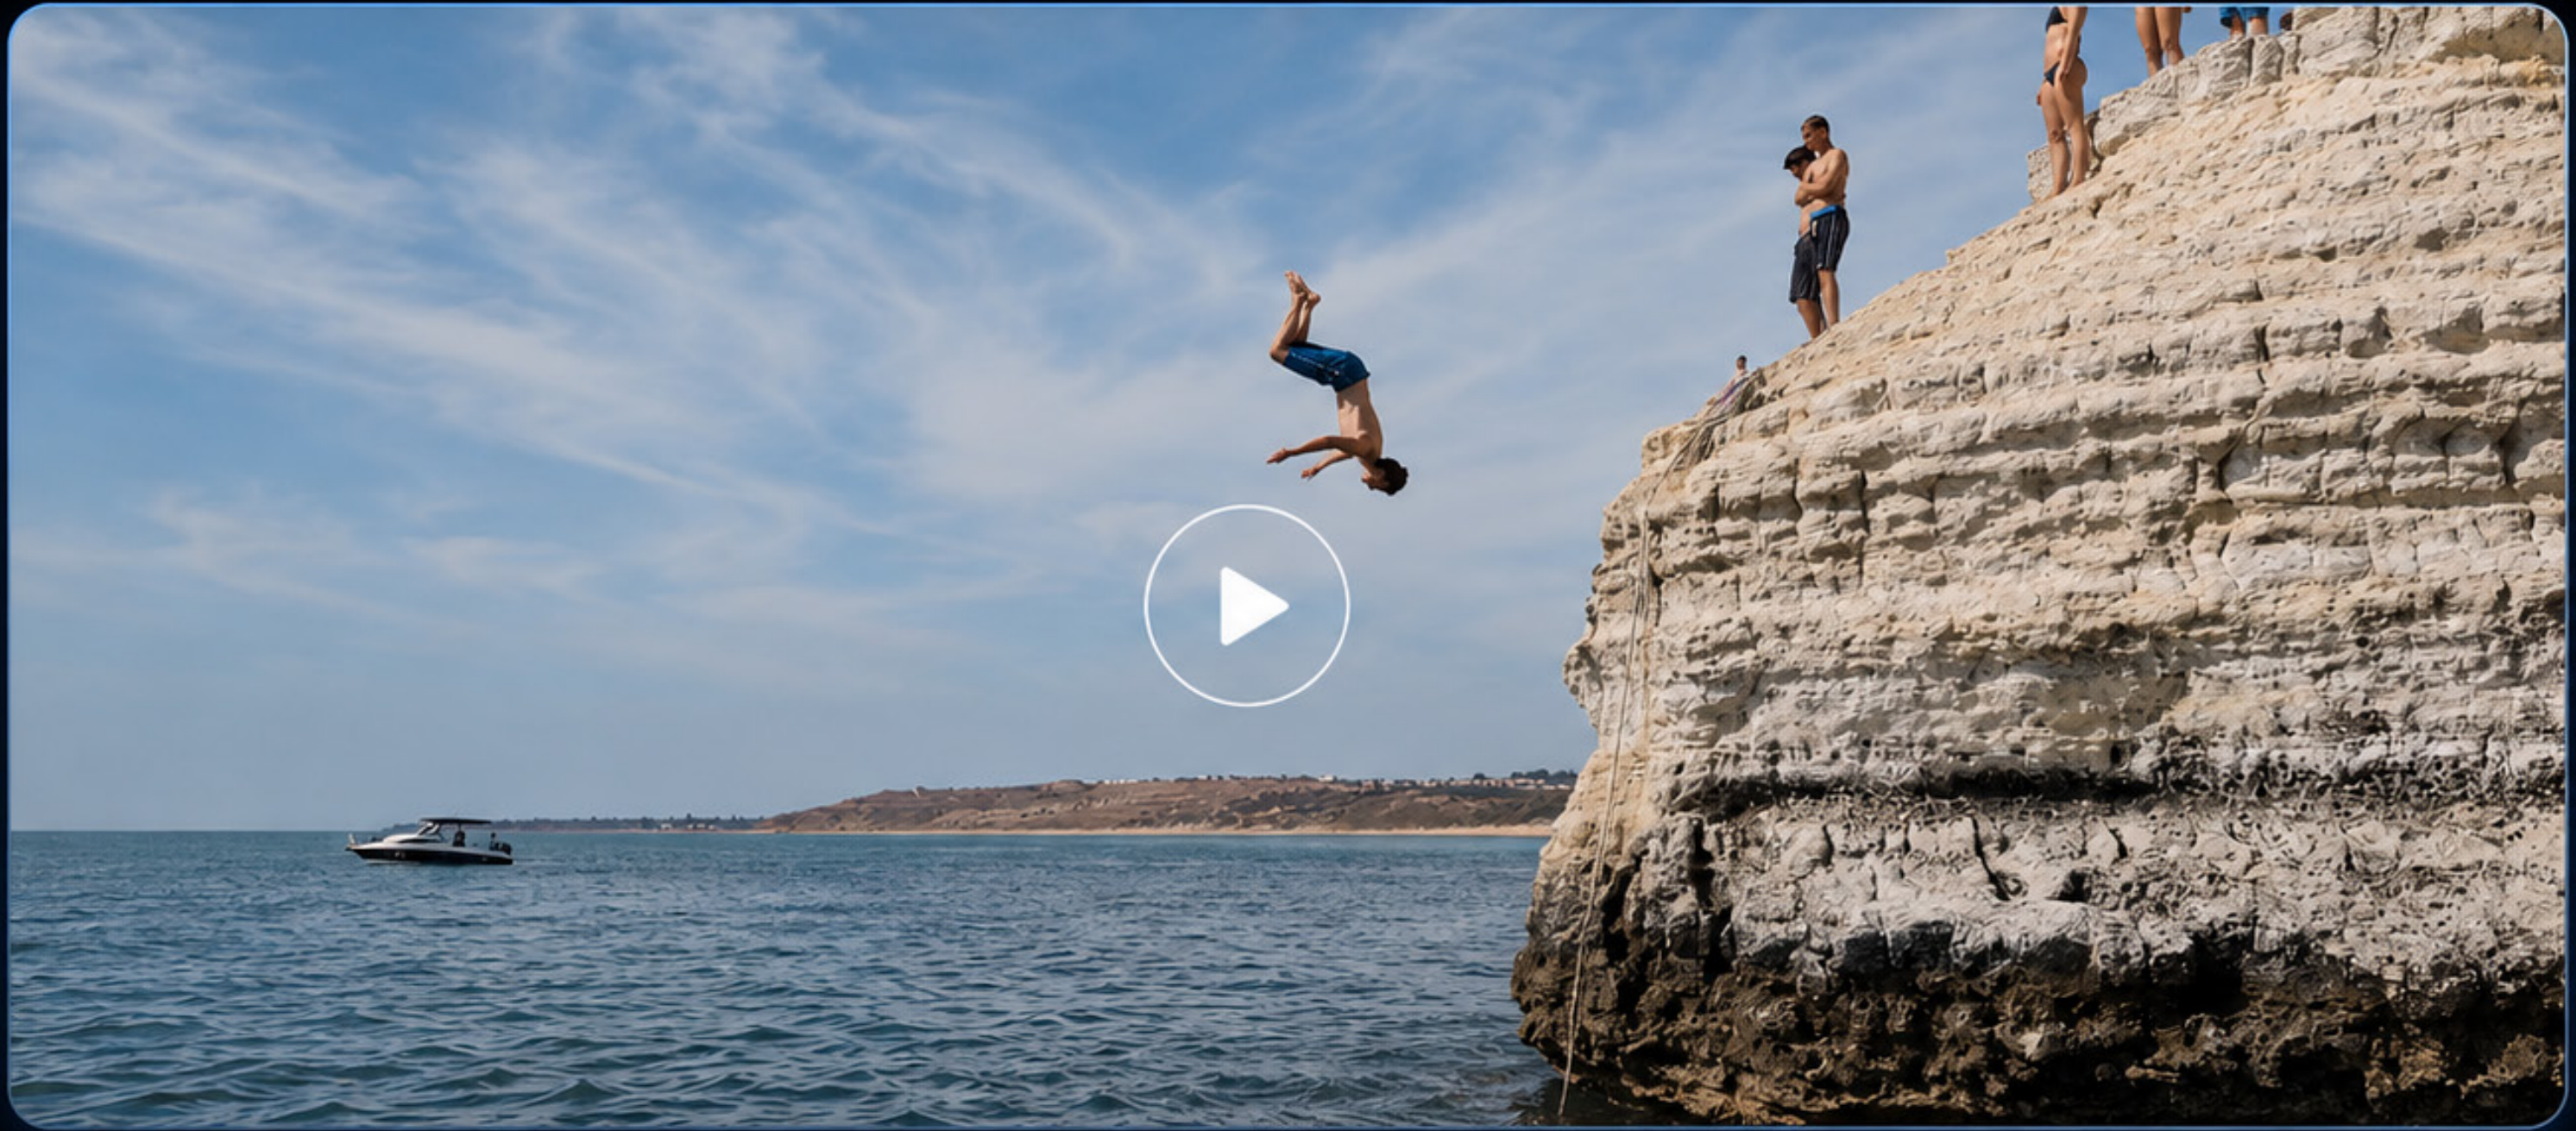

Crisp Even When Cropped ^[6]

Retain sharp details even when zoomed or cropped.

High-Quality Videos for **Big Moments**

Reliable Protection, Confident Flight

Designed with beginners in mind, DJI Lito X1 features a multi-layered safety system. From takeoff to landing, advanced tech has your back, so you can focus on the thrill of flying.

Smarter Sensing, Safer Flying

The built-in omnidirectional vision system actively avoids obstacles like cliffs, trees, and walls^[1]. A forward-facing LiDAR further enhances perception for highly precise detection. This dual system empowers beginners to fly confidently in complex environments.

Quick Takeoff and **Smart RTH** Feature

DJI Lito X1 supports quick takeoff without waiting for a satellite fix. With robust vision positioning, the drone can memorize flight routes in well-lit environments ^[1], helping ensure a safe Return to Home (RTH) along the original path even without satellite signals.

Stress-Free Practice via **Simulator App**

Available on iOS and Android, the DJI Simulator app lets you practice in virtual environments. Build confidence with basic controls and explore smart features that help make flying easier, all from home.

Fly Farther With Stable View

Extended battery time, paired with stable video transmission, supports longer flights, smoother controls, and greater creative freedom.

O4 Video Transmission for Stable View

Powered by DJI O4 video transmission, the drone delivers 1080p/60fps videos at a max range of 15 km^[5], transmitting clear views.

Ample Power for Unhurried Creation

Flies up to 36 mins^[4] with Intelligent Flight Battery, or 52 mins^[4] with Intelligent Flight Battery Plus. More time. More captures.

Create With Ease and Efficiency

Powerful storage and fast transfer keep your workflow smooth so you can focus on what matters most—creation.

Internal Storage

With **42GB** of internal storage, the drone saves stunning moments directly on board, reducing storage anxiety.

QuickTransfer

Transfers files at up to **50 MB/s**^[10] via Wi-Fi 6, downloading fully packed storage in **14 mins**^[10]. Also supports Off-State QuickTransfer.

Parallel Charging

Charge the drone directly via USB-C. For faster turnaround, the Charging Hub charges up to three batteries simultaneously^[11].

Wind Resistance

With wind resistance up to 10.7 m/s, the aircraft hovers and flies stably outdoors, ensuring reliable conditions for video recording.

— MORE CHOICES. MORE POSSIBILITIES. —

Flexible Combo Options for Your Need

DJI Lito X1 offers diverse combos and accessories for various creative needs. Highly beginner-friendly, it allows you to get started in no time. Choose your ideal setup, take off today, and let your creativity take wing.
